SBA Disaster Loans Available in Alabama Following Secretary of Agriculture Disaster Declaration

ATLANTA - The U.S. Small Business Administration announces today that federal economic injury disaster loans are available to small businesses, small agricultural cooperatives and most private, non-profit organizations of all sizes located in the counties of Barbour, Chambers, Cherokee, Cleburne, DeKalb, Henry, Houston, Jackson, Lee, Randolph, and Russell in the State of Alabama as result of drought conditions which began on January 1, 2008 and continuing.

These counties are eligible because they are contiguous to one or more primary counties in the State of Georgia. “The Small Business Administration recognizes that disasters do not usually stop at county or state lines. For that reason, counties adjacent to primary counties named in the declaration are included,” according to Frank Skaggs, Director of SBA’s Field Operations Center East.

“When the Secretary of Agriculture issues a disaster declaration to help farmers recover from damages and losses to crops, the Small Business Administration issues a declaration to assist small businesses and most private, non-profit organizations affected by the same disaster,” said Skaggs.

Under this declaration, SBA’s Economic Injury Disaster Loan (EIDL) program is available to farm-related and non-farm-related small business concerns and small agricultural cooperatives that suffered economic injury as a direct result of this disaster. Farmers and ranchers are not eligible to apply to SBA, but nurseries are eligible to apply for economic injury disaster loans for losses caused by drought conditions.

Eligible small businesses and non-profit organizations may qualify for loans up to \$2 million. These loans are available at a 4 percent interest rate with loan terms up to 30 years. The SBA determines eligibility based on the size of the applicant, type of activity and its financial resources. Loan amounts and terms are set by the SBA and are based on each applicant’s financial condition. Under this disaster declaration, the SBA cannot provide loans to agricultural producers.
